SUMMARY

Android Developer with nearly 2 years of experience in designing, developing, and maintaining apps. Skilled in startups and contributing to all development stages. Passionate about learning and tackling new challenges.

TECHNICAL SKILLS

- **Programming Languages:** Kotlin, Java
- **Android Development:** Android SDK, Jetpack Compose, MVVM, MVC, MVP, Kotlin Coroutines, Flow, LiveData, Design Patterns (Singleton, Factory, Observer)
- **UI/UX Design:** XML, Jetpack Compose, Material Design, Custom Views, ConstraintLayout, Responsive Layouts
- **Database Management:** Room, Firebase Realtime Database, Firestore, SQLite
- **API Testing:** Postman
- **API Integration:** Retrofit, Firebase, RESTful APIs, WebSockets, gRPC, Firebase Cloud Messaging (Push Notifications), Google Play Services
- **Performance Optimization:** Kotlin Coroutines, Multithreading, Battery Optimization, Memory Management
- **Testing:** JUnit, Mockito, Espresso (Unit UI Testing)
- **Version Control & Deployment:** Git, Gradle, GitHub

EXPERIENCE

Telestratum Networks Pvt Ltd

Bangalore, India

Android Developer

May 2023 – Present

- Developed and designed Android applications using Java and Kotlin, ensuring effective and efficient code.
- Used Android SDK to build robust apps and collaborated with UI/UX designers to improve user experience.
- Implemented features and functionalities throughout the full development lifecycle, including debugging, performance optimization, and API integration.
- Created layouts and user interfaces using XML, Jetpack Compose, and React.
- Managed data using Room Database, ensuring integrity and security.
- Ensured high code quality with unit testing using JUnit and Mockito.
- Designed scalable frameworks for state and task execution, optimizing performance and data management.

PROJECTS

Split Money App

2023

Technologies: *Kotlin, Java, Android SDK, Firebase, WebSockets, Room DB, Jetpack Compose*

- Developed a money-splitting app allowing users to create accounts, log in, and manage group expenses.
- Created a user profile screen where a QR code is generated, allowing users to scan it to add contacts quickly.
- Enabled real-time messaging within groups using WebSockets, allowing users to send messages about their expenses, including amounts and descriptions of where the money was spent.
- Integrated Firebase Cloud Messaging (FCM) for push notifications about transactions and group updates.
- Currently working on features to categorize expenses and calculate individual shares.

EDUCATION

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology Chennai, India

B.Tech in Electronics and Communication Engineering, CGPA: 8.2/10

May 2023

LANGUAGES

English, Hindi

CERTIFICATIONS

- Kotlin Programming Certification - Great Learning.
- Java Programming Certification - Great Learning.
